OPERATIONS

- Section 5.02: The District’s Operations Department shall be notified **three (3) days** in advance for a water order start or to make a flow change. Orders for termination of delivery will be accepted **no later than 12:00 p.m.** the day preceding requested shut-off.
- Section 5.10: When the system is running in a capacity mode, there is a maximum 7-day run time on each turnout. The District will maintain a priority list for starts during such periods and starts will follow a first come first serve basis.
- Section 12.03: Pumps from canals or streams should have automatic shut-off to protect the pump if there are low flows in the canal or stream. The District is not liable for damage to pumps due to low flows, trash, or other foreign objects in the canal or stream.
